

I am writing in support of the radio station K-LOVE. I sincerely hope that you do not change your policies that would result in them losing the ability to broadcast to any of the communities they currently serve. I love the station, with it's commercial-free format, and the great mix of Christian rock. Please don't take a wholesome thing away. It's great to have something to listen to that I don't have to worry my young kids will hear something raunchy. It also keeps me in touch with national and international news. I hope you keep your policy to allow a listener-supported, healthy, encouraging format on the air. Thank you!
